

Which Grip is 'Write' For Me?

The Crossover Grip

Added “wings” prevent the common problem of fingers crossing over each other. Provides maximum reinforcement making it a great training tool for beginners.

The Pinch Grip

Balances structure with freedom. Provides gentle support to guide fingers into proper position. Allows for some flexibility making it the perfect transitional tool.

The Pencil Grip

Relieves tension and fatigue while reinforcing proper positioning. Use this grip for a lifetime of comfort and control.

Which Grip is 'Write' For Me?

The Bumpy Grip

A slimmer design than The Pencil Grip, with the added texture of small bumps. Increases tactile feedback, and helps to stabilize fingers.

The JUMBO Grip

The same design as The Pencil Grip but 40% larger for even more support. It's the only grip to provide support up to the second knuckle.

The Writing Claw

Provides the most control over the fingers and hand. Flexible enough to fit on pencils, utensils, crayons and markers. Ideal for the earliest stages of grip development.
